EDITORIAL NOTES.

Oregon is receiving a valuable class of immigrants. The average amount of money brought by each family is \$1,000. In one colony of 88 Swedes and Norwegians from Michigan, Wisconsin and Illinois, the lowest amount held by any family was \$500 and the largest \$5,200. If there was a system of irrigation in this State that would make its present waste lands available for agricultural purposes, Nevada would come in for a large share of this immigration that is now rolling west like a flood. Even Kansas, like California, is going into irrigation. Western Kansas is almost a desert, on account of the lack of rainfall, but with a good system of irrigation it will probably surpass the eastern end of the State in fertility. The largest canal ever constructed in the State is now contracted for. It will take water from Arkansas river and will irrigate a district forty miles wide. But for the short-sightedness of the last Nevada Legislature we might have been on the road to thrift and commercial independence. The people will "see it" some of these days.

The expressions of indignation on the Board's action in removing Dawson from the Superintendency of the Asylum are loud and general. The *Enterprise*, *Appeal* and, in fact, nearly every paper in the State, have universally condemned their action. The Board have committed a very grave mistake in prostituting a charitable institution and using 140 unfortunate victims of insanity as a cat's-paw to assist in carrying out their political promises. The confidence the people reposed in members of the commission has been outraged, the people have been defied, but political jobbery gets its reward. Mr. Adams and Mr. Laughton have "stood in," so to speak. Time, however, makes all things equal.

R. M. Cochran, Superintendent of the Glenn ranch, Colusa county, Cal., feels confident of gathering a large crop of grain this year from the 47,000 acres that have been sown. A couple of weeks ago, during the dry spell, when there were poor prospects for a crop, nearly all the hands were discharged from the ranch, but since the rains they have been employed again.

S. B. Wiggin, at a public meeting in San Francisco on Monday night, announced that women school teachers of that city within a week have felt the tenure of their positions to be so insecure that they have gone to the saloon of a party boss in the endeavor to retain their places. If this be true, it is such a disgraceful fact as to put even San Francisco to shame.

Yellow Jacket has declared a dividend of 20 cents per share, the first for many years. It is not much, compared with what the Comstock has done, but it shows that the great lode is not entirely barren, and leads many to hope that other mines will follow suit.

Boston humanizers held a meeting last night to consider the best means of elevating the poor Indian. Most of us on the Pacific coast think the best way to elevate the savage is to suspend him from the limb of a tree by a trusty riat.

San Francisco Post: The American heg is down on his luck in France and Germany. (In New York and San Francisco he is a leading citizen and keeps his carriage.)

Oregon and Washington Territory are being flooded with immigrants. In two weeks about 1,600 have left San Francisco for the northern country.

Louisiana Shooting.
 Baton Rouge, April 4.
 In an altercation this afternoon between W. T. Sanders, a broker, and W. A. Leonsaur, publisher of the *Capital Advocate*, the latter was shot through the head and died in two hours. Both are well connected.

A Double Lynching in Nebraska—Murderers Disposed of.
 OMAHA, April 4.

The citizens of Hastings, Nebraska, at 11 o'clock last night lynched two men for the murder of Cash Millett, a grocer of that town, on the night of March 28th. Millett, while on his way home, was assaulted by three masked highwaymen, and when he started to run away he was shot in the back, from the effects of which he died last Saturday night and was buried on Sunday. The affair created great excitement and the citizens immediately offered \$1000 reward for the arrest and conviction of the murderers. Three young men—Fred Ingram, John Babcock and Jim Green—who had resided in and around Hastings for some time, were arrested a day or two after the murder. A clue leading to the arrest was a mask which one of them had dropped near the scene of the murder and which was proven to have once been part of a stand-over in Green's room at a hotel. The prisoners were kept separate and officers succeeded in making two of them believe that the third had confessed, which was a fact, and therefore there was sufficient ground to lead everybody to believe, beyond doubt, that the right men had been arrested. Babcock was the one who made the confession, the substance of which was that they had intended robbery only, but when Millett ran away Ingram fired the fatal shot.

Ingram confessed that he was concerned in the affair, but did not fully admit the shooting, stating that if he did it he was so excited that he did not know what he was about. Early on Sunday morning before Millett's death became generally known the prisoners were hurried out of town and taken to the penitentiary at Lincoln for safe keeping, as it was feared that the citizens would immediately lynch them.

The Coroner's jury had not yet returned a verdict and they refused to proceed unless the prisoners were returned, so that they could be examined further. Accordingly the prisoners were returned last evening and taken to the court-house, where the Coroner's jury immediately returned a verdict that Millett came to his death from a pistol-shot fired by the prisoners.

Upon being at once arraigned before Judge Work, Green and Ingram pleaded not guilty, while Babcock pleaded guilty. This was followed by intense excitement among the vast crowd assembled in and around the court-house, and it was expected that lynching would soon take place. The prisoners were put in a room and closely guarded by the Sheriff and several deputies, and close watch was kept by citizens to see that they were not spirited away again.

At 11 o'clock a large party of masked and armed men appeared at the court-house and, proceeding to the room, broke in the door and covered the guards and prisoners with about 80 guns. The guards were ordered to leave, which they did, and thereupon the mob took the prisoners, bound and gagged them and brought them down stairs. Only those who were masked were allowed to participate in the neck-tie sociable, all others being ordered back.

The lynchers proceeded to the St. Joe and Western Railway bridge and hung Green and Ingram without ceremony, the job being done quietly and quickly. Their hands and feet were tied and they had no coats, hats or boots on. The remains were left hanging to the bridge. Babcock was not hung, but was taken back to town and turned over to the authorities. His life was spared temporarily at least on condition of his confession.

An Exploded Sewer and Two Dead Children.
 BALTIMORE, April 4.

A boy threw a lighted match into a man-hole of a sewer and an explosion followed, which damaged the street and houses \$20,000 worth. While removing the debris the bodies of Chas. McCarthy and Andrew Hirtenschach, children, were found in the sewer. They were playing in the street at the time of the explosion.

New Internal Revenue Regulations.
 WASHINGTON, April 4.
 The Commissioner of Internal Revenue will issue to-morrow a new circular of instruction with regard to the collection of what are known as special taxes—that is, taxes imposed upon manufacturers of and dealers in malt and distilled liquors and tobacco.

Going for Careless Corporations.
 HARRISBURG, Pa., April 4.
 Governor Pattison has issued a proclamation declaring forfeited the charters for corporations and companies failing to make return to the Auditor General within three years. List will include 175 corporations of such character as to cause general surprise.

Boston Humanizers Discussing the Indian Question.
 BOSTON, April 4.
 Edward Everett Hale presided to-night at a largely-attended meeting of

persons interested in the elevation and education of American Indians, under the auspices of the New England Woman's Association and National Indians' Rights Association. A letter from the Commissioner of Indian Affairs, Price, enclosed all dispatches received from the San Carlos agency to date. They contradicted reports of the participation of reservation Indians. Agent Wilcox reported that the white men killed were depredators. Price says the failure of the government to discriminate between good and bad Indians has been one of the most serious mistakes the government has made, and it has been made repeatedly.

Youthful Incendiaries.
 ST. JOSEPH, April 4.
 During the past three weeks 18 barns in certain portions of the city have been burned. The fires uniformly occurred at 4 o'clock in the morning. The matter has been a great mystery, and a reward of \$500 was offered. This afternoon two boys, aged 14, went hunting, a short distance from the city, and were refused admission into a field by a farmer. A few moments afterwards the farmer's barn was in flames. The boys were arrested and confessed to firing the barn. It is believed they were the incendiaries in other instances.

Children Thrown Out of Employment.
 MILWAUKEE, April 5.
 It is estimated that the labor bill passed by the Legislature, imposing fine and imprisonment in case of the employment of children under 14 years of age, will throw nearly 3,000 out of employment in this city. Large liquor manufacturers employ a considerable number; several hundred are also employed as porters and in rag and junk shops.

A Plan for Hoisting the Czar.
 FRANKFORT, April 5.
 A special from Moscow says a large mine has been discovered connecting with the Kremlin, where the coronation of the Czar is to take place. The telegram also states that a request has been wired to St. Petersburg for 100 sappers to be sent at once to Moscow for the purpose of destroying the mine.

Washington Items.
 WASHINGTON, April 5.
 Brigadier General Joseph K. Byrnes (retired), late Surgeon General U. S. Army, died at his residence in this city this morning, of Bright's disease.

Death of an Old Fireman.
 SAN FRANCISCO, April 5.
 Assistant Chief Engineer Ross, who was so seriously burned by the gas explosion at the Palace Hotel on Tuesday afternoon, died at 12 o'clock last night of his injuries.

The Indian War.
 SANTA FE, N. M., April 4.
 There is some apprehension of a general outbreak at the San Carlos agency. The Fourth Cavalry has been ordered to Fort Stanton and Fort Selden to scour the country between the Rio Grande and Deming. Another company is scouting between Silver City and Lordsburg. Colonel Forsythe is still on the Animas Range. The hostiles seem to have fled to Old Mexico. Everything is reported quiet at the Navajo agency.

Riot on the Isthmus—Eight Thousand Men on a Spree.
 PANAMA, March 27.

Severe and continuous rioting has taken place along the line of the canal works, originating in race-hatred between Jamaicans and Carthaginians. Some 20 of the former have been massacred and the Government finds itself unable to restore order. No work is going on and as there are about 8,000 men drinking, really serious trouble is anticipated on the Isthmus, which is being overrun by the dregs of all nations. DeLesseps leaves the Isthmus to-day for New York. He insists that the canal will be in fine shape in 1888.

A London Sensation.
 LONDON, April 5.
 One of the city papers yesterday announced that it had received a letter without signature, wherein the writer threatened to blow up the government offices. The affair was referred to the police and last night detectives arrested a man who had in his possession a quantity of stuff supposed to be dynamite. The arrest caused a decided sensation.
 The Irish police have made two further arrests in the suburbs in connection with the man arrested last night. The latter is said to be an American. Nearly half a ton of nitro-glycerine has been seized in London already.

"The Will of the People."
 ST. PETERSBURG, April 5.
 Developments of the utmost importance are expected in connection with the forthcoming great trial of Nihilists in this city. It was originally believed that this trial was the last of the kind on the list. Recent arrests, however, have made other Nihilist trials probable, and it is the present intention to arraign the newly-discovered plotters either before the coronation of the Czar or directly after. The accused have, with three exceptions, already pleaded guilty of belonging to a party which they assert is in fact as well as in name, "The Will of the People."

Fenians at Work.
 BIRMINGHAM, April 5.
 The city police made raids upon suspected localities to-day, and discovered a Fenian nitro-glycerine factory in full operation.

TAILORING ESTABLISHMENT.
MY REPUTATION AS A TAILOR is already established. "The Boss Tailor" lives in all country towns. They advertise shop-worn auction goods; they dispose of cloths not saleable in the larger cities, and are continually trying to mislead their patrons by false representations. Reno is no exception to the rule. She has a "Boss Tailor," but look at a suit made by the Virginia street "Boss" and you will immediately see the point.
MY STOCK is carefully selected. It is of the very best of Foreign and Domestic Manufacture and I am prepared to make suits of the latest style, cut from the finest goods, at prices never before equalled. My work speaks for itself. I guarantee a fit in every case. Call and examine my samples and prices. Leave your measure and be happy. Don't be misled by the "Boss." You will always regret it if you do. Thursday April 8, 1923.

DECORATION DAY.

Let us Honor the Graves of Our Dead Soldiers.

There are several Union soldiers buried at Reno, and their graves should be decorated with flowers of grateful remembrance on the day set aside for that purpose all over the country. They served the flag they loved, and their memory should be consecrated by us all. To place flowers upon the grave of a dead patriot is a simple act, but it is full of meaning and should become part of the religion of Americans. It is hoped that some effort will be made to recognize the custom as it obtains elsewhere, and that the graves of those buried in this vicinity will be decorated on the 30th of May, which is the National Decoration Day. There are buried here Isaac Chamberlain, Thomas Laswell, Joseph Mansell, S. C. Scoville and Goodrow. Let the soldiers' graves be honored, that their patriotism may be a subject of thought for the rising generation.

TRUCKEE ITEMS.

Scraps of Interest From a Lively Camp.

The following are taken from the *Republican* of April 4.

Upwards of \$500 has been contributed to the new road between the Hot Springs and Mariette & Folsom's wood camp.

Lonkey & Smith are putting in machinery in their mill at Camp 16, and will in future make a specialty of box making.

It is currently reported and generally believed that John F. Moody will assume control of the Tallac Hotel at Lake Tahoe.

George Schaffer commenced cutting lumber at his new mill yesterday. He now has over 3,000,000 feet of logs in his pond.

The Pacific Shingle Mill at Camp 16 shut down last week on account of the storm. In a three weeks' run they cut between 6,000,000 and 7,000,000 shingles.

All the roads leading to Sierra Valley and Tahoe are in bad condition. The snow that has fallen has melted off in places so that it is neither sleighing nor wheeling.

A large number of mechanics and laborers are daily arriving in town, looking for work. But few of the mills have started up yet, and the ground is too soft for logging, consequently the supply is much greater than the demand.

James Machovich of Boca has taken a contract from the Boca Mill Co. to drive 6,000,000 feet of logs down the Little Truckee from near Russell valley—a distance of about 10 miles. He has organized a crew, and will commence operations this week. Dan McPheeters and George Marsh, two of the most experienced river drivers on the Truckee river, will have charge of the drive.

Richardson Bros., who were compelled to shut down their mill at the beginning of the storm, started up again this morning. They have a sufficient quantity of logs to keep them busy sawing for several weeks, and by that time, unless another storm occurs, they will be able to start their logging train.

The State Prison Tracks.

Dr. Harkness classifies the author of the Carson foot-prints as "the Homo Nevadensis, whose length of track is 18½ inches, width at the ball of the foot eight inches, width of heel six inches. Average length of steps, 27 inches; length of stride, 54 inches; width of trackway, 18 inches, as measured from the center of the sandal to the center of the corresponding one." If feet count, says the *Alta*, Nevada is the foremost State in the Union. The Homo Nevadensis sports pedal extremities that would put a Chicago belle to blush.

A Hard Road to Travel.

Commercial Row is a hard road to travel when it gets late at night. After the lights have been put out on Cooke's corner and in front of George Becker's the pedestrian cannot see where he is going. He will run against a fish-counter, and tumbling over a dry-goods box he will fetch up among a lot of agricultural implements. There ought to be a light on the corner of Sierra street and Commercial Row.

The Weekly Gazette.

The circulation of the RENO WEEKLY GAZETTE is increasing rapidly, owing to its general excellence as a miscellaneous newspaper. It is highly prized by farmers and all others who do not receive a daily mail. It contains a synopsis of the news of the world, besides local matter and choice selections. It is a weekly magazine of current events. Only \$2.50 per year, post paid to any part of the country.

In the Justice's Court.

This morning Justice Young sent Michael Whalen and Charles Sneed to the county jail for being disorderly. George Palmer used the vilest of language on the street last night. There was so much pointless nastiness in it that Mereson arrested him, and this evening at 8 o'clock the Justice will give him a lecture.

JOTTINGS.

Minor Occurrences in and About Town.

If you want a buckboard read the 50-cent column.

Hastings' band had a practice meeting last night, and did well.

Regular convocation of Reno Chapter, No. 7, R. A. M., to-night.

Six car loads of cattle were shipped to San Francisco last evening.

Yesterday afternoon a young man caught a 10-pound trout in the river with his hands.

A good opportunity to buy choice plants and shrubs cheap is advertised in the 50-cent column.

The clouds broke up and went south last night, and this morning there was ice as thick as window glass.

Nasby is closing out his stock of watches and jewelry at cost. Thermometer at 7, 9, 11, 1, 3—39, 52, 55, 53, 56.

Seventeen bars of bullion went west last night from Belleville and Bodie. They were heavy chunks of collateral.

Two long special freight trains pulled in to-day, bound in opposite directions. The freight business is increasing.

The telephone between the Insane Asylum and Reno, has been removed from Myers' drug store to the Depot hotel.

One of the notorious Arp brothers was here this morning. He took one look at Constable Nash and shook the dust of Reno from his feet.

Look out for Abraham Bro.'s big advertisement. They have a large Spring stock of fine clothing and furnishing goods on the way, which they will sell at bed-rock prices.

Four car loads of emigrants went west last night, numbering about 135. This morning there were only 40 bound east. The travel is in favor of the Pacific coast, three to one.

Brookings has got a lot of San Gabriel (Los Angeles county) oranges, as an experiment to see how they will agree with the critical taste of Reno fruit eaters. They are really fine.

There was an army of tramps on hand this morning, but learning the fate of five of the fraternity, working in the chain-gang, the nomads continued their journey towards sunrise.

The professional tramp seems to have no objective point. He is willing to go anywhere, and don't care whether he gets there or not. While scores of shiftless creatures are going west in a hap-hazard manner, as many are going east.

A stage driver likes to drive up to his stopping place as if he were getting on headway for a half-mile race, and a locomotive engineer likes to come into a station as if he were running for a speed prize. That is the way they do it in Reno.

The sheep-shearers who left Reno last week to make the tour of the ranges are said to be making, on an average, \$10 per day. One man, more expert than the rest, is rolling up \$12 per diem. This is a good business. Anyone but a professional pugilist would be satisfied with it.

Last night's west-bound freight train was very long. There were cars representing all the railroad companies in the country, apparently; but the biggest of all was the ghostly-looking barn on wheels belonging to the Studebaker Wagon Company. These cars look like inflated circus-vans, and are a terror to brakemen.

This forenoon a flat-car loaded with railroad iron ran down the grade into a box-car full of corn, bursting open the end and starting the contents to running like a tail-race. A brakeman was "dropping" the car from the main to another track. When he came to the Sierra street crossing he proceeded to put on the brake, when he discovered that there was no chain on it. He immediately jumped off the car, perhaps saving his life by so doing.

A Pretty Band of Deer.

Wm. Bovard of Long Valley came in yesterday, returning to-day. He states that about 10 days ago, on going out to drive up his cows, he found 11 head of deer feeding and mingling with his cows. They appeared very tame, he going within a few rods of them. As he neared them they would gently move forward. On retiring a short distance and raising and lowering his hat on a stick the deer, out of curiosity, would come within a few feet of him. They were all hornless and in fine condition, and, altogether, were a pretty sight.

The Cricket Pest in Modoc.

Crickets are making their appearance in Modoc county, and are making preparations for their annual raid. Peter Ivory tells the *Independent* that while hunting stock recently he saw a large army of them in Howard's gulch at the lower end of the valley. There is a large drove of them just north of Alturas, and extending to Jackson's ranch five miles above that place. They are also said to be very numerous in Big Valley.

Prof. Perkins Coming Back.

Prof. Perkins will probably be in Reno in May. The intention is to have a Musical Convention on the 8th, 9th, 10th and 11th of May. The leading singers of Virginia, Carson, Reno, Truckee and Wadsworth have begun to stir in the matter.

PERSONALS.

Brief Mention of the Movements of Notables and Others.

Hon. P. Reddy went below last night.

S. Rosenblatt of Cincinnati is at the Palace.

Senator Farley was a west-bound passenger last night.

Senator Jones will probably arrive at Reno to-night.

Hon. S. C. Wright was down from Carson last night.

Dr. Leonard, the dentist, is in town, and busy, as usual.

Walter L. Marsden has accepted a position at the asylum.

Rev. J. D. Hammond came in from the east last evening.

F. Belmont of Verdi registered at the Golden Eagle last night.

L. Adams and family of Fish Springs are at the Golden Eagle.

Antone Dragovich went south to Candelaria and Bodie this morning.

Johnny Wemple of Milford, is said to be a happy married man now.

Mrs. L. J. Flint and Mrs. J. R. Young have returned from their California visit.

Charles Davis, an old resident of Candelaria, left here this morning for Wood River.

Hy Barnes of Washoe, Reno, Winnemucca, Paradise, and almost everywhere else is visiting Reno.

Ike Hoffman, one of the old merchants of Austin, was in town this morning. He is one of the Hoffman Bros. of Bodie.

Eugene Steinberger of Long Valley has gone on a trip up the coast on the look-out for a desirable location to purchase land.

A. E. Ross last evening received news that he had won his Evans water suit, lately tried in the Superior Court of Lassen county, Cal.

H. J. Thyes is 29 years old to-day, and has received lots of presents from friends. If he gets many more he will set up a fancy notion store.

Billy Eckoff, the well-known Virginia saloon man, who has been traveling about the world for the past six months, went through to the Comstock this morning.

Johnny Cannon will start off tomorrow morning on a tour to Wadsworth, Stillwater, Big Meadows, or any other place where he can sell agricultural implements.

Dute Gray, ex-Deputy Sheriff of Washoe, came up on the morning train, having been summoned as a witness in the Coombs trial at Carson, for which place he left on the V. & T.

Jacob L. Beam.

Jacob L. Beam, an old resident of Carson, and at one time a very prominent man in business circles, died here yesterday of Bright's disease of the kidneys. He has been suffering for several years, and came to Reno four or five months ago in the hope of relief, but death's clutch was so firmly fixed that he was unable to throw the grim monster to the ground. He realized his condition and knew that his time was drawing near. He was for many years one of the heaviest freighters on the old Placerville road, running several big mule teams between Shingle Springs and Carson, Austin, White Pine, etc. He leaves a wife and several grown sons and daughters to mourn his loss. He was a member of the Masonic order and an Odd Fellow, and will be buried by those societies to-morrow at Carson.

The Price of Nevada Wool.

The San Francisco papers say Nevada wool is selling in that city at from 16 to 20 cents per pound, according to quality. A considerable quantity is now being shipped, most of it coming from the north.

Kaiser will have a large amount to send below in a short time. He is now shearing 10,000 sheep, and other herdsmen in Douglas county will have as much more to ship.

Label.

The San Francisco Post says: Dr. Dawson, the Superintendent of the Nevada Insane Asylum, has been removed for cause. The cause was that he was seen at a late hour of the night to enter a restaurant and eat a plate of Eastern oysters. The indulgence in such an extravagance in the present condition of the times in Nevada is considered prima facie evidence of defalcation.

Reno Ahead.

San Francisco is making war upon those imitations of men who live upon the proceeds of a woman's shame. The same war was begun in Reno some time ago and has been so well prosecuted that the enemy has entirely abandoned the field. The gentry don't like the chain-gang.

Refreshments Coming.

Boosky says he is coming to Reno with a brand of whisky called Kentucky Dew, that is the nicest goods ever brought to this country. His house has just got in 200 barrels from around the Horn. It is seven years old.

A Trade in Pyramid.

Yesterday Antone Dragovich sold an interest in the Golden Wheel mine at Pyramid to Nick Milco, a well known Stockton merchant, for \$300. Mr. Milco will at once engage capital to develop the mine.
